INTERESTS

PROFILE

A very passionate, organised and self-motivated person. My time in Italy, Berlin, Passau and New York made me adaptable and good at problem-solving. With my career in law I learned how to deal with being under pressure and how to handle delicate information. I am a curious, eager learner, enjoy diving into new topics and challenging myself.

TECH SKILLS

Ruby on Rails, JQuery, PostgreSQL, MVC, OOP
JavaScript, HTML/CSS, Bootstrap, Figma, Stimulus
Heroku, Github, Git

PROJECTS

REUNION is an app that helps a group of **friends** who live in **different cities** to find the best **dates and destination** possible for a reunion. The app uses flight data provided by an API, a gem that does the voting on possible dates and JavaScript to better organize the pages.

API "Trip match" | Gem "Votable"

ANNOYANCES is a **marketplace** for you to find the perfect way to get back at that friend that is always joking with you by **booking** a prank.

As the team leader I was able to train my management skills while also practicing my coding skills.
